

Shona Guthrie - Website Development

WordPress Websites

What is a WordPress website

These websites are easy for customers to navigate.

Social Media

It can link to your social media and automatically post updates to your website and social media at the click of a button.

Search Engine Optimisation

We can add Search Engine Optimisation to your website, so sites like Google, Bing, and Yahoo! can easily find you.

Security

Your website is backed up on a daily basis automatically, which means if there is a crash, we can easily restore it, and there is inbuilt security.

Statistics

You can easily check the statistics of visits to your website.

Google AdWords

We can link your website to your Google AdWords (pay per click advertising on Google) account.

Responsive Website

The website will work on all platforms, including desktops, notebooks, tablets and smartphones.

WordPress App

You can download the WordPress App and use it to post to your website or social media on the go.
